Week One of 2013 Session

March 8, 2013

Recently a local Tallahassee school entertained two special guests— Senate President Don Gaetz and Speaker of the House of Representatives Will Weatherford. The two lawmakers outlined their single legislative agenda called “Work Plan Florida” which focuses on several issues including: jobs, higher education, election law ethics, and campaign finance and pension reform. This school event was unique in that both legislative leaders outlined a single plan and pledge to work together. This rarely happens in Tallahassee.

For the first time in the past three years the state’s chief economist actually predicted a surplus of \$436.8 million for the states 2013-2014 fiscal year. But that was before the sequestration and the possibility of federal cuts came into the financial picture. The bad news is that the cuts could have a broad impact and could hit Florida’s economy hard, throwing off current revenue projections for the state economists.

Again this year, assisted living facilities (ALF) will have the attention of the Legislature. Several bills are likely to be filed to strengthen ALF regulation. LeadingAge Florida will monitor these proposals closely to assure minimal impact on our providers.

So much of LeadingAge Florida’s public policy work occurs before the legislative session. Already several of our members testified at legislative delegation meetings about our public policy priorities for 2013, setting the stage for a successful session. LeadingAge Florida staff has met with key legislative leaders and staff, as well as other organizations.

With the Florida Legislature facing complex and controversial issues, and with more than one-third freshmen in its membership, **advocacy will make the difference!** It is critical that your voice is heard above all of the others who will also be engaged in the legislative process. If we are silent, someone else will fill that void.

You can participate in LeadingAge Florida’s grassroots advocacy campaign by doing the following:

- Participate in the **Weekly Legislative Update Conference Calls** with LeadingAge Florida’s staff and legislative consultants (**10 – 11 a.m. on Fridays, starting today through April 26**) to learn about what’s happening during the 2013 Legislative Session.
- Attend LeadingAge Florida’s Annual Legislative & Regulatory Conference on April 15 & 16.
- Read the “End-of-Week” *Legislative Update* for the latest on LeadingAge Florida priority legislation.
- Respond to LeadingAge Florida’s calls to action during the legislative session.
- Call or email your legislators when you are concerned about an issue affecting your organization.
- Invite your legislators for tours and town hall meetings after session so they can meet with your residents or clients and their families.

STATE BUDGET ISSUES

Earlier this year, **Gov. Rick Scott** unveiled his \$28.6 billion general revenue “Florida Families First” budget recommendations for FY 2013-14 to the Legislature for its consideration. Keep in mind that the Governor’s Recommended Budget is just a proposal. The Legislature will use it as a starting point during the development of the House and Senate budgets.

Here are some of the budget’s highlights:

- The Florida Families First 2013-2014 Recommended Budget includes a 7.3 percent increase for K-12 public schools. The already announced \$2,500-per-teacher pay raise is included in this increase.
- The second major budget initiative proposes to save manufacturers \$141 million by eliminating the taxes on manufacturing equipment.
- Government employment is reduced by 3.1 percent via the elimination of 3,647 positions.
- Government employees will receive various levels of pay raises to the tune of \$310 million.
- Funding for the implementation of the Affordable Care Act is provided at nearly \$850 million. Over \$700 million of these expenditures will fund Medicaid primary care physician free increases.
- The budget proposes to eliminate Medicaid funding for chiropractic and podiatric services.
- The Governor proposes to increase Medicaid hospital rates by 2 percent.
- To reduce the waiting lists, approximately 2,000 new waiver slots are proposed for the Nursing Home Diversion and the Aged and Disabled Adult waivers.
- A 2 percent price level increase for Medicaid nursing home and hospice rates is recommended. (If the Legislature approves this proposal, nursing home rates would increase by \$4 on the average.)
- Nursing home caseload is projected to increase in the FY 2013-14 budget recommendation and this increase will require \$82 million in new funding.
- The recommended budget does not propose additional funding for any of the 100 percent state funded long-term care programs, such as Community Care for the Elderly and Home Care for the Elderly.
- The budget does not recommend any additional PACE slots.

Please do not base your budget for next year entirely on the potential increases listed above. As of now, our recommendation to you is to hold your nursing home budget flat for another 12 months.

The Sequestration: How it could Affect Florida

Because President Barack Obama and Congress did not reach a deal to stave off the “sequestration” cuts, the process of cutting more than \$85 billion in federal spending has begun. The bad news is the cuts could have a broad impact nationally and will hit Florida’s economy hard, throwing off current revenue projections from state economists. The economists have predicted a surplus of \$436.8 million for the 2013-2014 fiscal year -- the first projected surplus in three years -- without taking into account the federal cuts.

Amy Baker, Florida’s chief economist, predicts the paring of defense spending would cost the state jobs from the federal government and private defense contractors, and take more than \$2.7 billion out of Florida’s economy. Now that the deadline has come and gone without a deal, Congress and the President still has the option to pass legislation within the next month to avert the cuts before the effects are felt by federal agencies. If this occurs, Florida leaders must still craft a budget amid federal fiscal uncertainty. So, once the drama is settled in Washington D.C.

will Florida Lawmakers have to call themselves back into a special session? Not sure yet, but stay tuned!

Affordable Housing Bills

Impact of Governor's Proposed Budget – Gov. Rick Scott released his 2013-14 state budget recommendations and it includes a request for \$50 million for the State Housing Initiatives Partnership (SHIP) program. This funding would assist approximately 4,000 families statewide who are eligible for various housing activities in their areas. This \$50 million would help bolster the state's economy, generating about 5,500 jobs and an estimated economic benefit of more than \$372 million.

SB 310 Housing — By Sen. Oscar Braynon II (D-Miami Gardens)

The bill would allow an aggrieved person to file a civil action without first filing an administrative complaint for a discriminatory housing practice. It would require that, if the Florida Commission on Human Relations or local agency has obtained a conciliation agreement with the consent of the aggrieved person, the filing of a civil action is prohibited, except to enforce the terms of the agreement. The House companion is **HB 523** by Rep. Barbara Watson (D-Miami Gardens).

SB 740 Relating to Affordable Housing Tax Exemptions — By Sen. Wilton Simpson (R-New Port Richey)

The bill deletes an ad valorem tax exemption for property owned by certain Florida-based limited partnerships to be used for affordable housing for certain income-qualified persons. The effective date will be upon becoming a law and shall first apply to the 2013 ad valorem tax rolls. The House companion is **HB 921** by Rep. Ronald Renuart (R-Ponte Vedra Beach).

HM 753 Memorial Supportive Housing for the Elderly Program — By Mark S. Pafford (D-West Palm Beach)

The bill urges Congress to adequately restore funding to Supportive Housing for the Elderly Program. The Memorial states that funding for low-cost housing has drastically decreased from the \$650 million appropriated in 2005 to \$78 million in 2011 and \$0 in 2012. This lack of funding leaves thousands of low-income seniors on waiting lists for as long as 2 or 3 years or more. Currently there is a desperate need for low-cost housing in the State. The Senate companion is **SB 912** by Sen. Joseph Abruzzo (D-Wellington). A press conference will be held March 11 related to this issue. LeadingAge Florida will participate in the press conference on the need for affordable senior housing, sponsored. It will be held at 10 a.m. EST, at the Capitol Complex, 4th floor Capitol Rotunda on the House side.

Additional background information on the press conference and the need for affordable senior housing is available on the FLARA website. Please direct questions on the press conference to FLARA President, Tony Fransetta, at (561) 792-8799 or contactus@flara.org.

HB 755 Affordable Housing — By Rep. Darryl Rouson (D-St. Petersburg)

The bill revises provisions for terminating certain rental agreements and would provide that access to essential commercial goods and services for persons of low income served by housing authorities is public use; prohibits use of eminent domain for certain purposes; expands certain powers of housing authorities to include certain commercial projects providing essential goods and services. The Senate companion is **SB 1120** by Sen. Geraldine Thompson (D-Orlando).

This bill strengthens the enforcement of current regulations for Assisted Living Facilities (ALF) by revising fines imposed for licensure violations, clarifying existing enforcement tools, and requiring an additional inspection for facilities with significant violations. Specifically, the bill would:

- Clarify who is responsible for assuring that mental health residents in an ALF receive necessary services.

CS/HB 47 - Fire Safety Devices by Rep. Ed Hooper (R-Clearwater) requires the gradual adoption of tamper-resistant smoke alarms powered by a nonremovable lithium “long life” battery designed to last for 10 years. In jurisdictions that have adopted similar measures, data indicate a significant decline in alarm failures. The bill does not require existing smoke alarms to be immediately replaced. Instead, the provision applies to new installations and applies when existing smoke alarms are replaced. Manufacturer comments generally indicate that smoke alarms should be replaced every 10 years. CS/HB 47 does not apply to new construction, because it exempts any smoke alarm or fire alarm system that is electrically wired or connects to a panel. Current residential building codes already require smoke alarms to be wired to commercial power. The Senate companion is **SB 264** by Sen. Alan Hays (R- Umatilla). In general, this bill moves the determination of the value of medical services from the trial court judge to the jury. Where the bill has already been paid, the jury is informed of the actual amount and the jury may not award a higher amount. Where the services have not been paid (which may apply to past damages and will always apply to future damages), the bill limits the amount recoverable to the maximum amount that is customarily accepted in payment for such services by providers in the same geographic area, excluding Medicaid, Medicare and other government entitlement programs.

The bill also prohibits an injured party from being awarded reimbursement for a medical service that was not medically necessary. Medical necessity is from the perspective of the injured person, not based on expert testimony.

Also, the bill only applies to a cause of action that accrues after the effective date of the bill. The bill provides an effective date upon becoming a law.
