**Week Seven of 2013 Session**

**April 19, 2013**

#### **Budget & Medicaid Expansion Update**

On Thursday, Senate and House leaders came to agreement on the broad outlines of a budget for the coming fiscal year and instructed their budget conferees to begin the difficult process of hammering out the details. Both sides described the agreement as a striking contrast to recent years, when a lack of money and, later, a lack of trust between the House and Senate, led to late allocations and last-minute scrambles to get the budget done on time.

For the first time in many years, the budget writers are working with a surplus instead of a shortfall. Negotiations were not focused so much on what to cut, but where to increase the spending plan for the year beginning July 1 — and by how much.

The area-by-area breakdowns from the House and Senate released Thursday would devote more to education than the House originally planned, but less than the Senate, and more to health care and other human services than the Senate had initially intended, but less than the House.

Negotiating committees set to handle individual areas of the budget are expected to begin meeting Friday. They will have until Tuesday evening to reach any deals they can make before House Appropriations Chair Seth McKeel (R-Lakeland) and Senate Appropriations Chairman Joe Negron, R-Stuart, take over. If they cannot come to an agreement they will “bump” the issues to the Senate President Don Gaetz (R-Destin) and House Speaker Will Weatherford (R-Wesley Chapel)

As of Thursday evening, though, both sides said they were well on the way to reaching an agreement.

The Senate Health and Human Services Appropriations Subcommittee passed on Wednesday two different alternatives for expanding health coverage to more people as an alternative to expanding Medicaid. This allows the Senate to keep their options open as they work to strike a deal with House.

SB 1816 sponsored by Appropriations Chairman Joe Negron, (R-Stuart) relies on accepting \$51 billion in federal funds to provide help for about 1 million poor Floridians in buying insurance on the private market. The plan, which needs federal approval, would use \$1.2 billion in federal aid in the first year, while costing the state \$20 million. People in the plan would be asked to pay \$15-\$20 monthly premiums. This proposal is supported by Gov. Rick Scott.

The other plan, SB 1844 by Sen. Aaron Bean (R-Jacksonville) would reject federal money and create a subsidy for some poor people to buy coverage. This plan would use about \$15 million in state funding in the first year to help about 250,000 people receive basic access to health care such as flu shots or preventative care.

On the other side of the Capitol, the House Republicans are working on a third proposal that would cover about 115,000 people who make up to 100 percent of the poverty line. The plan would not use federal money. The House plan, sponsored by Chairman of the House Patient Protection and Affordable Care Act Committee, Rep. Richard Corcoran (R-Land O'Lakes), would cost the state as much as \$266 million annually. The House plan would give those who qualify \$2,000 per year and kick in \$300 of their own to pay for insurance. The cost over 10 years is roughly \$2.37 billion.

PCB SPPACA 13-03 Florida Health Choices Plus Program passed the House Patient Protection and Affordable Care Act Committee by a vote of 11-6.

### Affordable Housing Bills

**SB 740 Relating to Affordable Housing Tax Exemptions** — By Sen. Wilton Simpson (R-New Port Richey)

The bill deletes an ad valorem tax exemption for property owned by certain Florida-based limited partnerships to be used for affordable housing for certain income-qualified persons. The effective date will be upon becoming a law and shall first apply to the 2013 ad valorem tax rolls. The bill was referred to Community Affairs, Appropriations Subcommittee on Finance and Tax and Appropriations, but has not moved. The House companion, **HB 921** by Rep. Ronald Renuart (R-Ponte Vedra Beach), passed out of the Economic Affairs Committee 14-0 and is now on the House Calendar.

**HM 753 Memorial Supportive Housing for the Elderly Program** — By Mark S. Pafford (D-West Palm Beach)

The bill urges Congress to adequately restore funding to Supportive Housing for the Elderly Program. The Memorial states that funding for low-cost housing has drastically decreased from the \$650 million appropriated in 2005 to \$78 million in 2011 and \$0 in 2012. This lack of funding leaves thousands of low-income seniors on waiting lists for as long as 2 or 3 years or more. Currently there is a desperate need for low-cost housing in the State. It has been referred to the Local and Federal Affairs Committee. The Senate companion, **SB 912** by Sen. Joseph Abruzzo (D-Wellington) passed the Senate Children, Families and Elder Affairs Committee 9-0 and now goes to the Senate Community Affairs Committee.

**SB 928 Relating to Community Development** – By Sen. Wilton Simpson (R-New Port Richey)

The bill deletes an ad valorem tax exemption for property owned by certain Florida-based limited partnerships and used for affordable housing for certain income-qualified persons; extending the expiration date applicable to the granting of community contribution tax credits against the sales and use tax, corporate income tax, and insurance premium tax for contributions to eligible sponsors of community projects approved by the Department of Economic Opportunity; revising the powers of the Florida Housing Finance Corporation, etc. Effective Date: Upon becoming a law and shall first apply to the 2013 ad valorem tax rolls. The bill passed the Appropriations Subcommittee on Finance and Tax by a vote of 10-0. Its last stop before the Senate floor is the Appropriations Committee. The House companion, **HB 437** by Rep. Daniel Davis (R-Jacksonville), passed the House Economic Affairs Committee 14-0.

**SB 1852 Relating to Housing Funds** – By the Appropriations Committee

The bill appropriates \$200,080,474 to several state entities for various housing and foreclosure-related programs and services, contingent upon such funds being deposited into the state treasury from the National Mortgage Settlement. This money comes from the agreement that settles the state and federal investigations finding that the country's five largest mortgage servicers routinely signed foreclosure related documents outside the presence of a notary and

without really knowing whether the facts they contained were correct. Both of these practices violate the law.

Funds are appropriated, with specific restrictions and requirements, as follows:

- \$70 million for the State Housing Initiatives Partnership (SHIP) program;
- \$65 million for the State Apartment Incentive Loan Program (SAIL);
- \$10 million for housing for homeless persons;

SB 1852 passed unanimously in Senate Appropriations Committee on April 18, and will head to the Senate Floor. The House companion, HB 7111 by the Appropriations Committee, has been filed in the House.

### ***Nursing Home Bills***

**HB 1159 - Relating to Skilled Nursing Facilities** — By Rep. H. Marlene O’Toole (R-Lady Lake)

The bill would provide exemptions from certificate-of-need requirements for construction of licensed skilled nursing facilities in the vicinity of The Villages. HB 1159 was amended so that a formula would be used to calculate bed need; total beds in a new facility would be capped at 240; criteria would be set forth for retirement communities; and all nursing home beds would be dually certified as Medicaid and Medicare. It was passed favorably with CS by the Health & Human Services Committee (12-7 vote). Effective Date: July 1, 2013. The companion, **SB 1482** by Sen. Alan Hays (R-Umatilla), is scheduled to be heard in the April 23 Appropriations Committee meeting, if received.

- Allow a defendant nursing home to challenge a preliminary proffer of evidence related to a claim for punitive damages.
- Provide that punitive damages are generally only assessable against the person who committed the action (or inaction) that led to the injury.

In jurisdictions that have adopted similar measures, data indicate a significant decline in alarm failures. The bill does not require existing smoke alarms to be immediately replaced. Instead, the provision applies to new installations and applies when existing smoke alarms are replaced. Manufacturer comments generally indicate that smoke alarms should be replaced every 10 years. CS/HB 47 does not apply to new construction, because it exempts any smoke alarm or fire alarm system that is electrically wired or connects to a panel. Current residential building codes already require smoke alarms to be wired to commercial power. CS/HB 47 is now in House Regulatory Affairs. The Senate companion is **SB 264** by Sen. In general, this bill moves the determination of the value of medical services from the trial court judge to the jury. Where the bill has already been paid, the jury is informed of the actual amount and the jury may not award a higher amount. Where the services have not been paid (which may apply to past damages and will always apply to future damages), the bill limits the amount recoverable to the maximum amount that is customarily accepted in payment for such services by providers in the same geographic area, excluding Medicaid, Medicare and other government entitlement programs.

The bill also prohibits an injured party from being awarded reimbursement for a medical service that was not medically necessary. Medical necessity is from the perspective of the injured person, not based on expert testimony.

Also, the bill only applies to a cause of action that accrues after the effective date of the bill. The bill provides an effective date upon becoming a law. It is the House Judiciary Committee. **HB 601 Study of the Department of Elderly Affairs** – By Rep Matt Hudson (R-Naples)

The bill directs the Office of Program Policy Analysis and Government Accountability (OPPAGA) to conduct a review and evaluation of the Department of Elderly Affairs (DOEA) and its offices, divisions, programs and functions. The bill requires OPPAGA to examine the specific purpose and funding of each office, division, program, and function, then determine whether each entity within DOEA can be organized in a different manner to maximize efficiency and effectiveness. OPPAGA must address the impact on workload of all entities of DOEA as a result of the expiration of Medicaid waivers on Oct.1, 2013. OPPAGA is also required to determine if any department office, division, program, or function can be performed more effectively and efficiently by another agency in state government and, if so, to recommend restructuring and relocation to the most appropriate agency. One reason for the study is some programs that the

DOEA oversees would be largely absorbed into the new Medicaid managed-care program. It is on the House Calendar. The Senate companion, **SB 804** by Sen. **SB 1816 Relating to Health Care** — By the Appropriations Committee

The bill would create a program called "Healthy Florida" that would be administered by the Florida Healthy Kids Corp., which has long provided subsidized insurance for children in low-

and moderate-income families. Healthy Florida could require enrollees to pay premiums and co-payments for services, with the amounts set each year in the state budget. Enrollees would have a choice of health plans, which could receive contracts on a statewide or regional basis.

Like in the current Florida Healthy Kids program, insurers would be required to spend at least 85 percent of the money they receive on providing health services to enrollees, a concept known in the industry as a medical-loss ratio.

The bill would require Healthy Florida to be evaluated after three years, with the Legislature deciding whether to renew it. Also, the program would rely heavily on federal funding to pay for the coverage --- and would end if federal funding dropped below 90 percent.

The bill is now in the Appropriations Subcommittee on Health and Human Services.
