Grainger offers fast and easy solutions for managing your safety program with their Online SafetyManager® Program. This comprehensive safety management tool helps:

- Manage critical workplace safety programs right from your computer
- Audit your existing safety programs
- Create and maintain records vital to regulatory compliance

Grainger provides Authorized Online OSHA 10 and 30 training plus a selection of additional courses that meet current safety standards and regulations. These online courses help get your employees up-to-speed on critical, safe-workplace practices.
