

*Before the Quarterly
Compliance Update*

January 31, 2019

9:00 - 11:00 AM (ET)

Let's Talk PDPM

2019 will bring major changes in reimbursement to Skilled Nursing Facilities as CMS has finalized the Payment Driven Payment System (PDPM) for implementation on October 1, 2019. This system will rely on resident clinical characteristics reported on the minimum data set (MDS) and will include significant changes in the assessment process, scheduling and information used to determine a case-mix payment rate for Medicare Part A residents. Come join us to cement your understanding of this new system by discussing its individual components and identifying processes to have in place for successful implementation.

Learning Objectives:

1. Describe and understand the components of PDPM
2. Identify areas on the MDS that will be key with implementation of PDPM
3. Identify processes to implement for successful transition to PDPM

Faculty Deborah Lake, RN, RAC-CT **BKD, LLP**

Deborah is a member of the BKD National Health Care Group. She concentrates on Medicare and Medicaid case-mix reimbursement and compliance in the long-term care industry and on completion and coordination of the resident assessment instrument/minimum data set (RAI/MDS). She has over 30 years of experience in long term care including positions as director of nursing, staff development coordinator, corporate nursing coordinator and nurse consultant.

Seminar Details
