About the Summit

The Summit is a one-day gathering of acute and post-acute health care industry participants for education and networking. Designed to foster collaboration to improve health care delivery, the Summit was founded and is led by volunteer industry professionals and association leaders who determine the Summit's educational content and secure subject matter expert presenters and panellists. The Summit is unique among education and networking events in being collaboratively presented and promoted by the largest health care industry membership associations in Missouri – LeadingAge Missouri (organizing association), Missouri Hospital Association, Missouri Health Care Association, Missouri Chapter of American College of Healthcare Executives, Missouri Hospice and Palliative Care Association, Show Me of Missouri Healthcare Financial Management Association and Missouri Alliance for Home Care. The Summit is marketed by all presenting membership associations and founder corporate organizations.

The traditional health care industry verticals targeted for Summit attendance and participation include: acute care, skilled nursing, assisted living/dementia, rehabilitation, senior housing, home health, managed care, health care information technology and related fields representing for-profit and non-profit organizations. Within these industry verticals, the targeted audience includes: C-suite executives (CEO, CFO, COO, CIO), Executive Directors/Administrators, Population Health Management directors, Medical Directors, ACO Directors and Home Health Executives.

Sponsorship Benefits

This is the only event in the State of Missouri to provide visibility for your company or organization to all Missouri health care associations and their members. Your sponsorship affords excellent exposure through Summit signage and other event recognition, printed Summit materials and multiple e-marketing and individual association communications.
