

NOW WITH **COVID-19** SCREENING QUESTIONS
AND BADGE PRINTING CAPABILITIES!

Provide noncontact thermal temperature scanning & screening questions with **GOODVIEW® DYNAMIC DETECTION DISPLAY™**

Offer quick, accurate and automated temperature scanings with available COVID-19 screening questions and badge printing from Goodview. This new solution can help you follow guidance from the FDA, CDC and CMS to screen anyone entering a Long Term Care community.

Goodview's thermal scanning solution:

- Reduces time and expense of manual temperature screening at entryways using quick and accurate IR thermal technology
- Fully automates the building entry process when including the new COVID-19 screening question feature
- Includes optional badge printing for visual verification that visitors have been properly screened for building entry
- Gives quick audible and visual alerts to visitors if they have elevated temperatures or do not pass screening question requirements
- Can send real-time alerts for proper risk mitigation
- Includes facial recognition, mask detection and integration capabilities to provide a complete building entry solution

TEMPERATURE SCANNING KIOSK

with new time- and
cost-saving features

Goodview's tablet-style kiosk uses advanced thermal detection technology to quickly scan skin surface temperatures. It is noncontact and simple to operate. Combined with advanced question screening and badge printing software, this solution can quickly identify potential safety threats and help mitigate large-scale exposure.

Features include:

- › Temperature detection accurate up to $\pm 0.9^{\circ}\text{F}$
- › Non-touch, walk-up scanning and optional survey response with simple user software
- › Optional badge printing with 12 hour expiration
- › Optional mask detection
- › Available temperature logging for frequent visitors and staff
- › Customizable real-time alerting for failed survey response
- › Wall mount, table stand and floor stand options available
- › Multiple relays and outputs available for building system integrations
