[About this course >](#)

James L. West is Fort Worth's premier community in dementia care. Led by Drs. Janice Knebl and Sarah Ross, the West Center has been providing dementia clinical experiences to current and future healthcare professionals for more than 20 years.

Walk away with proven skills that can positively change the lives of those living with dementia and their care partners! Upon completion, participants are authorized to train staff, track outcomes, market and implement Dementia Live® and Compassionate Touch® within their organizations and offer both programs as community education. Additional benefit is use of the Dealing with Dementia Resource Guide that can be used for care planning, quality improvement and for staff and family education.

Your organization will become licensed to use the Dementia Live® and Compassionate Touch® branded program and materials for year. *Annual renewal fees required to maintain license.

ABOUT THE TRAINING:

Day 1

Dementia Live® is an evidence informed, powerful yet easy to deliver simulation experience that immerses participants into life with dementia, resulting in a remarkable inside-out understanding of cognitive impairment and sensory change. Supplies for immediate implementation in organization are included. Dementia Live is an Age-u-cate Training Institute Program. [Click here](#) for more information on program.

Day 2

Compassionate Touch® is an evidence informed, non-pharmacological approach that can reduce behavioral expressions in dementia and end-of-life care. The effective hands-on techniques taught are easy to learn and integrate into daily care practices, while strengthening relationships between care partners and those they serve. Compassionate Touch® is an Age-u-cate Training Institute Training Program. [Click here](#) for more information on program.

Day 3

Dealing with Dementia, a Rosalynn Carter Institute for Caregiving program, is an evidence informed workshop that introduces caregivers to a Dealing with Dementia comprehensive reference Guide. The workshop highlights safety, problem-solving, communication, stress management and prepares carepartners to quickly access information and resources they need from the guide and to support care planning and staff training throughout their healthcare career. [Click here](#) for more information.

Special session with Beth Nolan, PhD. Beth is a national speaker and dementia expert who works alongside Teepa Snow by advocating and training on techniques used by professionals working with dementia or other brain changes that focus on improved outcomes without pharmacological interventions.

REGISTER TODAY – SPOTS ARE LIMITED!

Registration deadline is Oct. 14th – [REGISTER HERE](#)

(Class maximum: 20 participants | Minimum 5 participants)
