

iN2LSM iNSIGHT Project

CMP Reinvestment Projects Grant

LeadingAge Texas has endorsed iN2L to offer skilled nursing communities the opportunity to **I**ntegrate **f**u**N**, **S**ustainable, **I**nnovative, **G**roundbreaking, and **H**elpful **T**echnology that reduces social isolation and enriches the lives of all their residents.

Project Goals

Reduce Social Isolation

- Provide opportunities for residents to stay connected to their families, friends, and the world beyond the confines of their senior living community
- Foster enriched staff/resident interactions that support all the dimensions of personhood—mind, body, and spirit

Improve Quality of Life

- Decrease isolation and depression
- Increase motivation and overall engagement

Project Description & Deliverables

The iNSIGHT Project allows iN2L to provide the state's skilled nursing communities with:

iN2L Systems – Any mix and quantity* of the following:

- 23" Mobile FLEX
- 75" Wall Mount**
- 75" Mobile
- 55" Mobile
- iN2L Tablet

** The system mix and quantity must reflect the community's resident capacity and building configuration, as well as ensure program sustainability.*

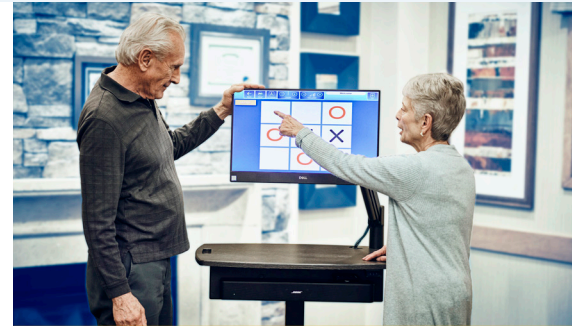

*** Participating communities shall be responsible for installing all Height-Adjustable 75" Wall Mount units.*

3-Year Personalized Subscription for Each System Includes:

- Content updates
- Person-centered customization done at the community right on the system or remotely through a family portal—loved ones can easily send videos, photos, or messages
- Project assistance and evaluation management
- Video chat available
- Unlimited online technical support

Interprofessional Project Implementation – Addressing the needs of the community's nursing, activities, social services, restorative, rehab, and marketing teams.

- Includes system installation, project rollout, and a customized onsite training conducted by our skilled iN2L Implementation Team and the iN2L Customer Success Manager (CSM)

CMP Reinvestment Projects Grant

Engagement Technology Competency Building

- Specifically tailored to the community residents
- Facilitated by an iN2L Customer Success Manager (CSM)
- Ensures program sustainability
- Onsite visits

Compliance – iN2L provides creative and innovative ways of supporting regulatory compliance and enriching resident lives.
