

# HOME HEALTH ORGANIZATIONS

Home health is a rapidly growing sector of aging services. Nonprofit home health provider members of LeadingAge benefit from networking with other nonprofits in the continuum that share the same values where home health providers can exchange best practices and discover the latest applied technologies that drive the field. As an expert in regulations and payment issues affecting aging services, LeadingAge helps home health providers navigate emerging policies and legislation that impact their business and how they care for older adults.

## **Member benefits specific to home health providers include:**

### **Advocacy**

- Personalized assistance in learning how to advocate/educate your state/national elected officials through grassroots outreach.
- Understand and stay prepared for the latest legislative activity through the monitoring of state and federal regulations pertaining to home health.

### **Education/Professional Development**

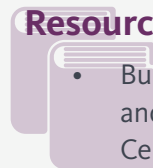

- Build your skill set through educational content at national meetings and the online LeadingAge Learning Hub.
- Stay up to date on the latest in-home health through the *Home and Community-Based Services Newsletter*.

### **Networking**

- The ability to share ideas, challenges, or get guidance from your aging services peers relevant to all levels of staff through LeadingAge listservs: Home Health, Continuing Care at Home, Human Resources, Marketing/PR, Compliance, and Rural Providers.
- Peer learning through educational content at the LeadingAge Annual Meeting & EXPO and LeadingAge Leadership Summit.

### **Resources**

- Build your knowledge base through research and resources from the LeadingAge LTSS Center @UMass Boston.
- Estimate your approximate Medicare fee for service reimbursement through the LeadingAge Home Health Payment Calculator.
- Resources on Home Health Conditions of Participation and Emergency Preparedness.
- Lean on LeadingAge staff experts on the topics of Medicare, Medicaid, VA payment expertise, technical assistance on Alternative Payment Models, or other technical assistance.
- Increase efficiency with resources on technologies for Home Health settings including EHR, telehealth, and medication management telecare tools through the LeadingAge Center for Aging Services Technologies (CAST).
- Access to Home Health Quality Metrics, a set of interactive data tools that assists home health agencies in analyzing how they measure up to their peers, demonstrate value, and improve performance.
