

LHA COVID-19 ALERT

LHA COVID-19 Alert: March 27, 2020 LHA Releases Member Resource for FEMA Public Assistance

With the [Louisiana COVID-19 Major Disaster Declaration \(DR-4484\)](#) and with FEMA funding being made available, the LHA developed this member resource for hospitals interested in applying for these funds.

In the [FEMA Public Assistance document](#), we have provided an outline of information available, necessary points of contact, links to required information, and forms to complete, along with additional resources to help you navigate the process. Additionally, the LHA has requested that the State serve as an eligible applicant and work with us to ensure that all our members, both not-for-profit and for-profit, are able to participate. We have also requested that state personnel conduct a learning Q&A call for hospitals, and we anticipate scheduling that event in the very near future.

As this emergency and the associated events continue to evolve, the LHA will update this document as needed and share it with our membership. (The link provided above will link to the most updated version of the document.)

If you have any questions or need additional information, please contact LHA SVP & CFO Tatsy Jeter at pjeter@lhaonline.org or LHA VP of Reimbursement Kevin Bridwell at kbridwell@lhaonline.org.

Note: This Alert is being distributed to **LHA Member Hospital C-Suite Staff** in the LHA database.
