OVERVIEW:
The federal government's 340B Drug Pricing Program is designed to deliver significant drug price savings to eligible healthcare organizations and their patients. The speaker will present regulatory and compliance insights for safety-net hospitals to consider when managing their 340B programs. Information presented will empower hospitals and FQHC’s to position their facilities for the changes currently being explored in the 340B marketplace. Please join us for this informative webinar, which will cover current trends and drivers in the world of 340B audits.

MEET YOUR FACULTY:
Jeff Davis is counsel in Baker Donelson's Washington, DC office. He is a senior advisor in the firm's Government Relations and Public Policy Group. He provides clients with healthcare regulatory counsel on issues affecting healthcare providers, including Medicare and Medicaid billing and reimbursement. He assists hospitals, pharmacies, other healthcare providers, and vendors on issues related to the federal 340B drug pricing program, including enrollment; contracting; audits; compliance with 340B, Medicare, and Medicaid requirements; and self-disclosures. Prior to joining the Firm, Davis served as vice president and legislative and policy counsel for 340B Health, a nonprofit organization of more than 1,300 hospitals and health systems participating in the 340B drug pricing program. During his more than seven years with 340B Health, he provided hospitals with technical assistance on 340B, Medicare, and Medicaid program compliance issues, oversaw research and policy efforts, and helped lead the government relations team in their work to educate members of Congress and their staff on the importance of the 340B program to hospitals and their patients.
