OVERVIEW:
Did you know that the number one area of deficiencies in the Centers for Medicare & Medicaid Services (CMS) Conditions of Participation (CoP) is regarding restraints? This webinar will discuss the most problematic standards in the restraint section and simplify the 50-page restraint and seclusion interpretive guidelines. The presenter will also provide a crosswalk to the Joint Commission standards, but note that every hospital that accepts Medicare patients must comply with the interpretive guidelines regardless of the accrediting body.

OBJECTIVES:
At the conclusion of this session, participants will be able to:
• Define the CMS restraint requirement of what a hospital must document in the internal log if a patient dies within 24 hours with having two soft wrist restraints on;
• Recall that CMS requires that all physicians and others who order restraints must be educated on the hospital policy; and
• Describe that CMS has restraint education requirements for staff.
