WHO SHOULD ATTEND
COOs, CNOs, chief legal officers, nurses and medical staff, quality managers, nurse educators, risk managers, compliance officers, chief of health information, pharmacists, social workers, discharge planners, patient safety officers, outpatient directors, directors of rehab, infection control staff, and directors of radiology

REGISTRATION DEADLINE:
Registrations are due into the LHA office one week prior to the webinar in order to ensure timely delivery of instructions and handout.

OVERVIEW:
This series will review the changes in the Center for Medicare & Medicaid Services (CMS) Conditions of Participation (CoP) manual and highlight the information most impacting Critical Access Hospitals (CAHs), including reviewing the changes and tag numbers in the QAPI standards, which have been completely rewritten for CAHs.

This series will also cover in a four-part format the entire CAH CoP manual, which is an excellent way to educate everyone in your hospital on all the sections in the CMS hospital manual, especially ones that applies to their departments. Hospitals have seen a significant increase in survey activity by CMS along with an increase number of deficiencies. The series speaker will discuss common deficiencies and how to avoid them.

OBJECTIVES:

Part 1: September 9, 2020
At the conclusion of this session, the participants will be able to:

- Describe that CMS requires that the board must enter into a written agreement if the hospital wants to enter into a telemedicine service;
- Discuss that CMS has a list of emergency drugs and emergency equipment that every CAH must have;
- Recall that the length of stay in the CAH should not exceed 96 hours on an annual average basis; and
- Discuss recommendations to do a gap analysis to ensure compliance with all the hospital CoPs.

Part 2: September 16, 2020
At the conclusion of this session, the participants will be able to:

- Explain the responsibilities of the pharmacists that include developing, supervising, and coordinating activities of the pharmacy;
- Describe the requirements for CAHs to monitor and inspect to ensure that outdated drugs are not available for patient use;
- Recall the requirements for security and storage of medications, medication carts and anesthesia carts; and
- Discuss the requirement to have a list of do not use abbreviations and a review of sound alike/look alike drugs.
Part 3: September 23, 2020
At the conclusion of this session, the participants will be able to:

- Recall that the infection preventionist must be appointed by the board;
- Recall that CMS has an infection control worksheet that may be helpful to CAHs;
- Discuss that insulin pens can be used on one patient only;
- Describe that an order is needed to allow the patient to self-administer medications;
- Explain that there are three timeframes in which to administer medications; and
- Discuss that CMS requires that a plan of care be done.

Part 4: October 1, 2020
At the conclusion of this session, the participants will be able to:

- Explain the informed consent elements required by CMS;
- Describe the requirements for history and physicals for CAHs;
- List what must be contained in the operative report;
- Discuss what the CAH must do to comply with the requirements for notification of the organ procurement (OPO) agency when a patient expires;
- Recall that CMS has many patient rights that are afforded to patients in swing beds; and
- Recall that hospitals must have a visitation policy and patients must be informed.
