HOSPPAC, the Louisiana Hospital Association’s political action committee, is a non-profit, incorporated council of groups and individuals who share an interest in the betterment of hospitals and health delivery systems in Louisiana. It is not associated with any political party. It is an independent, bipartisan organization, and participation is VOLUNTARY. HOSPPAC provides us the opportunity to combine resources, unite our voices, and make our message stronger and more effective. Hospitals cannot be successful in advocacy efforts without a strong PAC.
LHA Research and Education Foundation

The LHA Research and Education Foundation (LHAREF) is a 501(c)(3) originally organized for education and research purposes. Currently, the LHAREF administers the HPP emergency preparedness grant for the state and the HIIN contract with the Health Research & Educational Trust in partnership with the American Hospital Association.

For more than thirty-five years, hospitals have turned to the specialized programs provided by the Louisiana Hospital Association (LHA) Trust Funds and HSLI. Just as healthcare constantly changes, so must each hospital’s insurance coverage. That is why the LHA Trust Funds offer flexible options that are designed for today’s healthcare facilities. Through programs managed by a board made up of hospital administrators, the stable, secure LHA Trust Funds guarantee real value when it comes to providing Hospital Professional Liability, Physicians Professional Liability, General Liability and Workers’ Compensation Coverage.

American Hospital Association

The American Hospital Association (AHA) is the national organization that represents and serves all types of hospitals, healthcare networks, and their patients and communities. Close to 5,000 hospitals, healthcare systems, networks and other providers of care and 40,000 individual members come together to form the AHA.

Through their representation and advocacy activities, the AHA ensures that members' perspectives and needs are heard and addressed in national health policy development, legislative and regulatory debates, and judicial matters. AHA's advocacy efforts include the legislative and executive branches and the legislative and regulatory arenas. Founded in 1898, the AHA provides education for healthcare leaders and is a source of information on healthcare issues and trends. For more information, visit www.aha.org.

The LHA Institutional members are divided into the following geographical Districts:

- Bayou
- Northwest
- Central
- Southeast
- New Orleans
- Southwest
- Northeast

Each District, by a two-thirds (2/3) vote of its membership present and voting, adopt Bylaws for its governance, which are subject to review and approval of the LHA Board of Trustees. In addition, each District elects from among its voting membership a President, a President-Elect, a Secretary-Treasurer and a District Trustee. The Trustee represents the District on the LHA Board.

Each District meets at least four times a year. The LHA President & CEO and/or other LHA executive staff routinely attend these meetings to bring information on new initiatives and projects, as well as to solicit member feedback on LHA activities. All member CEOs or their designees are encouraged to attend these regional meetings for the exceptional networking and informational opportunities they offer.

The Louisiana Hospital Association (LHA) sincerely appreciates CEO/Administrator support for individual hospital participation in the Hospital Preparedness Program.

This year’s grant goals, now called Capability Planning Guides (CPGs), continue with reliance upon the regional infrastructure and the roles of the Designated Regional Coordinators (DRC) and the Designated Regional Hospitals (DRH) across the state. Individual hospital participation in HHS activities will continue to be crucial as hospitals increase their surge capacity to prepare for not only a pandemic flu event but also for all-hazard events, including Ebola Preparedness and Zika Virus.

The ultimate goal of the Hospital Preparedness Program is to improve hospitals’ emergency preparedness and response capabilities. While issues such as hospital size, type and location impact emergency response capabilities, all hospitals are valuable in these planning efforts.
