#### **Reasons for Wanting to Serve on the NLA Board:**

Being an active NLA board member, since 2011, and now as the NLA's current Board President, I believe my leadership skills have proven to be proactive, calm, and to-the-point when it comes to NLA business. Although I am a true believer that other people make a leader look good. The NLA has a wonderful staff of dedicated personnel that get the job done, along with an incredible forward-thinking Board of Directors, who truly believe in me to constantly move the ship forward. Our industry is never idle, as we are always being scrutinized by our regulating agencies and lawmakers, and it truly takes pure dedication to assure our industry survives. My goal is to continue my quest in assuring our association grows its membership and revenues to ensure our entire industry thrives and flourishes in the future. In addition, I believe it's time to move our association into the 21st century, by implementing better communication technologies throughout our organization. It is with great pleasure to know the wonderful, hardworking operators have entrusted in me to be a leading voice in this industry, and to this day and into the future I respect each and every operator for believing in my leadership.
