## LEGISLATIVE UPDATES

Due to the current focus on the coronavirus (COVID-19), we are not providing a legislative update today. The legislature is still set to meet to discuss items but information changes rapidly. League staff will use e-mail to reach stakeholders on legislative issues as they arise.

## Coronavirus (COVID-19) Resources for Cities

The League created a [webpage](#) for municipalities and their response to the COVID-19 (coronavirus) outbreak. We will update it regularly with information as we have it. This is meant to be a resource page with trusted and verified information for cities in Kansas when managing municipal resources during the COVID-19 (coronavirus) outbreak.

Here is the website: <https://www.lkm.org/page/covid-19>

We will still be using League News and additional conference calls or webinars in the coming weeks to keep you informed (we will advertise calls or webinars through our communication channels including listservs and League News). We would rather over-communicate and have open communication channels for you so you can get the information you need.

Governor Laura Kelly has issued an emergency declaration for the State of Kansas in response to COVID-19 (coronavirus). The declaration authorizes the use of state resources and personnel to assist with response and recovery operations in affected counties that meet certain criteria. See the [KDHE COVID-19 Resource Center](#) for current updates of cases and response activities.

COVID 19 CORONAVIRUS DISEASE
 STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.
