Legislative Updates

COVID-19 Shutdown Compensation Bill - SB 286 would set up a process where an aggrieved business could go through a process to receive compensation from the state and local governments if the local government has COVID-19 restrictions in place. The bill only provides for face mask ordinances if they are in place after May 1, 2021 and requires the business to enforce the ordinance. The bill was heard last week in the Senate Assessment and Taxation Committee and the bill has now been referred to the Senate Judiciary Committee. We expect the bill will come out and be worked by the Senate. Please contact Trey Cocking with any questions.

Property Tax Transparency – Yesterday, the Senate passed out HB 2104, which extends the 20 mills general property tax for schools for two additional years. The bill also includes an amendment that will push the date when a taxing entity must let the county clerk know it plans to exceed to the Tax Neutral Rate to July 20. Then, hearings will take place between August 20-September 20, and the final budget will be due to the County Clerk on October 1. Please contact Trey Cocking with any questions.

STAR Bonds - SB 124 was passed out of the House Commerce Committee with additional transparency requirements, and an amendment that prevents a city or state official from being directly employed by the project developer. The bill now goes to the House Floor. Please contact Trey Cocking with any questions.

Special District Consolidation - SB 118 creating an innovative new process to allow voluntary special district consolidation was passed by both Chambers and sent to the Governor. Please contact Amanda Stanley with any questions.

Municipal Motor Graders - *HB 2295* exempts municipal operators of motor grader vehicles from the requirement to hold a commercial drivers’ license (CDL). The bill has been through the House and has now cleared the Senate transportation committee. Cities need to ensure that operators are properly trained to use motor graders for snow removal or other operations; the committees heard testimony that CDL training does not in fact cover these vehicles and that the CDL requirement seriously hampers municipalities’ ability to properly staff and appropriately train their crews. The bill has been placed on the Consent Calendar. Contact Deborah Barnes with questions.

A weekly legislative calendar is available for review.
