PUBLIC MEETINGS - PUBLIC WATER SUPPLY LEAD AND COPPER RULE IMPLEMENTATION

All public water systems in Kansas must develop a Lead Service Line Inventory (LSLI) of both their water system and private service lines or demonstrate an absence of lead service lines. All LSLI plans MUST be submitted to the Kansas Department of Health and Environment (KDHE) by October 26, 2024. KDHE resources can be found at: https://www.kdhe.ks.gov/547/Lead-Copper-Rule. KDHE has developed an online LSLI portal for each public water system to report 22 certifications (Online Reporting Portal). This handout from KDHE (LSLI Requirements Guidance) provides guidance for all public water systems.

KDHE is providing technical assistance to public water systems to compile LSLI inventories. If you have your city has not already attended one of these meetings, consider attending one of the following meetings to find out more information:
