

**Environmental Analyst
Charlestown Navy Yard**

The MWRA is seeking an Environmental Analyst to support the Director of Environmental and Regulatory Affairs in evaluating local, state, and federal environmental regulations and permit requirements related to MWRA operations and assist with the oversight and implementation of operating procedures for water and wastewater infrastructure improvements and expansion. The work includes assisting with environmental permitting and operational decisions based on research and application of local, state and federal requirements; specifically, the Massachusetts Environmental Policy Act, the Wetlands Protection Act, federal and state Clean Waters Act, federal and state Clean Air Act requirements, and storm water permit requirements. Work will include preparing updates to MWRA operational materials to ensure work is conducted in a manner that is consistent with the Massachusetts Endangered Species Act and Natural Heritage & Endangered Species Program; making determinations about whether MWRA projects trigger MEPA thresholds, and reviewing and preparing notices of intent for local conservation commissions. The position requires a four (4) year college degree in environmental science, political science, public policy or administration, environmental engineering or equivalent degree in environmental science or related field; a master's degree preferred; and three (3) to five (5) years of experience in interpreting or applying environmental regulations.

Salary Range - \$1375.61 - \$1890.23 weekly
