

FUSS & O'NEILL

## Wetlands Scientist

### ABOUT US

At Fuss & O'Neill, our mission is to provide our clients with innovative and practical engineering, scientific, and planning solutions to meet their needs. We act together as one company, collaborating to achieve our priorities; we believe diverse viewpoints make for a stronger team; and we support our employees' professional growth through training and opportunities for increased responsibility.

### ABOUT THE JOB

Fuss & O'Neill is seeking a Wetlands Scientist to lead our ecological assessment and wetland permitting practice in Massachusetts. The successful candidate will be responsible for completing resource area delineations and function-value assessments, conducting habitat and species surveys, preparing permit applications and reports, providing construction oversight and environmental monitoring, and supporting business development activities. This professional will interface with internal multi-disciplinary staff, clients, local Conservation Commissions, and state and federal regulatory agencies to support a variety of ecological assessment and wetland permitting projects.

### POSITION REQUIREMENTS

- Bachelor's degree in wetland science, biology, plant/soil science, ecology, or related environmental science, Master's degree preferred
- Minimum 5 years environmental consulting or related experience, project management experience a plus.
- Registered Professional Wetland Scientist (PWS) preferred and/or Certified Professional in Erosion and Sediment Control (CPESC)
- Strong written and verbal communication skills required, including the ability to produce high quality written deliverables and give effective presentations at hearings
- Electrical utility sector experience a plus; GIS experience a plus

This position will reside in our **Springfield, MA** office. Visa sponsorship is **NOT** available for this position.
