

Wetland Scientist

Lucas Environmental, LLC, an environmental consulting firm based in Quincy, Massachusetts is searching for a Wetland Scientist with five to eight years of experience to join our growing team on a variety of environmental permitting projects. www.lucasenvironmental.net

Responsibilities

- Conduct natural resource evaluations including, but not limited to wetland delineations, wildlife habitat evaluations, and rare species surveys.
- Develop permit strategies with project team for projects in various market sectors.
- Conduct federal, state, and local wetland related permitting efforts.
- Develop and/or review technical reports and documents.
- Perform construction oversight and environmental monitoring.

Skills and Abilities

- Excellent verbal and written communication skills.
- Ability to prioritize and manage multiple tasks and projects on short deadlines.
- Ability to interact with clients.
- Ability to delineate wetland resource areas independently.
- Self-motivated with attention to detail and ability to work independently.

Qualifications

- 5-8 years of experience.
- B.S. in environmental science, natural resources, wetland science, or a related field is required.
- Demonstrated experience with local, state, and federal wetland regulations in Massachusetts is required. Experience in other New England states is preferred.
- Must have the ability to conduct tasks independently.
- Expertise in identifying plants, insects, birds, reptiles, and/or amphibians.
- Rare species experience is preferred.
- WPIT required, PWS Certification preferred.
- Certifications such as CWS, RPSS, CPESC are a plus.
- Ability to use and make maps with GIS is required.

This position may involve working in remote field locations, and may include night/weekend shifts, and/or working in challenging weather conditions. A vehicle is required. This position requires the ability to work cooperatively as part of a team.

About LE

Lucas Environmental, LLC was founded in 2008, built on the principles of performing quality work and providing reliable service, in the field and in the office. As a small business working throughout New England, our responsibilities include preparation and coordination of the environmental science aspects of a variety of project types including residential and commercial development, municipal reviews, railroad and roadways, and renewable energy.

LE offers an opportunity to work on a wide range of challenging and exciting projects. We provide an environment that promotes learning and professional growth, a competitive base salary, a retirement plan with a company match, a commission based bonus program, and health and dental insurance.

Please send your letter of interest and resume to Christopher Lucas, Lucas Environmental, LLC, 500A Washington Street, Quincy, Massachusetts 02169, or e-mail to cml@lucasenvironmental.net.

LE is proud to be an Equal Opportunity Employer.
