

District D.O.c.-A-Day

Tentative Agenda

All attendees are reminded that the agenda can change due to situations beyond our control. Please be flexible. It is also possible that key committee hearings may occur during the day. MAOPS staff may have to attend the hearings in order to ensure our testimony is heard. Often physicians are able to testify for the profession as well. Typically we will know on Monday of each week of any committee hearings we must attend and can notify you in advance if the agenda must be altered.
