

**Thursday, January 16**  
9 am - 2 pm

**The Lowe House Building**  
Room 170

# Healthy Maryland Eyes 2020 and Beyond

*An eye and vision exhibition featuring Optomap Retinal Imaging Technology*

**Eyes are the window to overall health. We're inviting you to take a glimpse inside.**

**Beyond 20/20 vision, routine comprehensive eye exams can detect the first signs of systemic health concerns.**

- 1 in 4 children have a vision disorder that can interfere with learning and development
- An eye exam might reveal the first sign of diabetes, hypertension, autoimmune diseases, and cancers
- Diabetes is the leading cause of preventable blindness among adults in the United States

**Eye care is health care. Come see for yourself why all Marylanders need comprehensive eye care.**
