

Candidate Statement

Bonnie Li-MacDonald, PharmD, BCPS

My name is Bonnie Li-MacDonald, and I am grateful for the opportunity to be considered for a position on the Board of Trustees for the Maryland Pharmacists Association. I have served as MPhA Communications Committee co-chair and have been an active member at the board and annual meetings. I collaborated with the Communications Committee to increase member engagement and awareness for MPhA through multiple projects including the MPhA logo rebranding, social media campaigns, and technology learning sessions.

I have advocated for pharmacy bills at every Legislative Day for the past 8 years and currently serve as an advanced pharmacy practice preceptor for students from pharmacy schools in Maryland. I contribute to my profession as a clinical pharmacist by managing chronic diseases states in the primary care/ managed care setting in the Maryland, DC, and northern Virginia area.

My service as an active MPhA member has taught me a great deal about the importance of involvement in the pharmacy profession. I am committed to advocating and promoting the profession of pharmacy through MPhA. It would be an honor to serve as a trustee and to help shape the important decisions that drive the success of this organization. Thank you for your consideration and support.
