Due to an abundance of various topic ideas from the group, I’ve decided this edition of our roundtable discussion will not be dedicated to a single topic, but Lightning Round style:

- Workforce Development: Who do we need? And, how do we find them?
- GIS Utilization by Surveyors: In what ways are we, or should we, utilize this technology?
- Large Control Networks: What software and procedures do we use? How do you maintain an evolving / legacy project? What is proper due diligence when taking over a project from another design firm?
- Regulatory Creep: They want us to sign what?!?
- Remote Education - Courses, Conferences and Webinars: What do you like and when do you like it?
- Bring your own!: Anything is on the table (within the realm of Surveying; no answers will be available regarding the disarray of any local Sports Teams).

1 CPC will be awarded for attendance with participation.

*If you plan on attending, please RSVP to Dan Burke, Jr., (dlburke@cpja.com) or 301-434-7000 ext. 156, by Close of Business on Wednesday, May 8th. Thank you.
