

SCOPE of Pain Community Meetings

Follow these instructions on how to complete the post-test and evaluation and download your certificate.

If you have any questions, please feel free to call BUSM CME at 617-638-4605 or email cme@bu.edu.

1. Go to Scope of Pain website and click on "In-person attendees" in the blue box labeled "Already trained?" on the bottom right of your screen.

HOME ONLINE TRAINING IN-PERSON TRAINING BECOME A TRAINER TOOLS/RESOURCES CONTACT US ASK THE EXPERT

What is SCOPE of Pain?

SCOPE of Pain is a series of continuing medical education/continuing nursing education activities designed to help you safely and effectively manage patients with chronic pain, when appropriate, with opioid analgesics. Our program consists of:

- A 3-module web-based activity;
- 10 live conferences held around the US that include Policy and Resource Panels, and
- Train-the-trainer sessions, and a subsequent trainer-delivered series of hospital/community health center based grand rounds workshops.

The FDA has mandated manufacturers of extended release/long-acting (ER/LA) opioid analgesics, as part of a comprehensive Risk Evaluation and Mitigation Strategy (REMS), to make available comprehensive prescriber education in the safe use of these medications based on the FDA curriculum known as the [Blueprint for Prescriber Education for Extended Release and Long-Acting Opioid \(ER/LA\) Analgesics](#). Our curriculum covers all aspects of this blueprint and more to provide a comprehensive educational program.

Who is this for?

Physicians, nurse practitioners, physician assistants, registered nurses, nurses, dentists, and pharmacists

Why do I need SCOPE of Pain training?

Chronic pain affects approximately 100 million in the US, making it one of the most common reasons for patients to seek medical care. Unfortunately, pain management, including the appropriate use of opioids, is not well covered in medical training.
