Occupational Health And Safety Audit System: Version 2021.01 INTERACTIVE

SECTIONS [Audit System: Row reference]

- 1 Administration and Legal Requirements [99]
- 2 Education, Training and Promotion [325]
- 3 Public Safety, Security and Emergency [356]
- 4 Personal Protective Equipment [375]
- **5** Housekeeping [425]
- 6 Scaffold and Temporary Works [459]
- **7** Suspended Platform [522]
- **8** Ladders [544]
- 9 Fall Protection [557]
- 10 Electrical Safeguarding [569]
- 11 Emergency / Fire Prevention & Protection [597]
- 12 Demolition Work [628]
- 13 Excavation Work [653]
- **14** Tools [666]
- **15** Cranes [693]
- 16 Material Hoist [737]
- 17 Transport and Material Handling [753]
- 18 Site Plant Machinery [769]
- 19 Plant and Storage Yards [823]
- 20 Workplace, Environment, Health & Hygiene [874]

SECTIONS: ALPHABETICALLY

- A Administration and Legal Requirements [S.1]
- C Cranes [S.15]
- **D** Demolition [S.12]
- **E** Education, Training and Promotion [S.2]

Electrical Safeguarding [S.10]

Emergency/Fire Prevention & Protection [S.11] Excavation [S.13]

- F Fall Protection [S.9]
- **H** Housekeeping [S.5]
- L Ladders [S.8]
- M Material Hoist [S.16]
- P Personal Protective Equipment [S.4]

Plant and Storage Yards [S.19]

Public Safety, Security and Emergency [S.3]

S Scaffold and Temporary Works [S.6]

Site Plant Machinery [S.18]

Suspended Platform [S.7]

T Tools [S.14]

Transport and Material Handling [S.17]

W Workplace, Environment, Health % Hygiene [S.20]

ADMINISTRATION AND LEGAL: SUBSECTIONS (KEY WORDS)

- A Accidents, Reporting / Investigation and Recording of
- **B** Bulk Mixing Plant
- **C** Committees, Occupational Health and Safety

Cranes - Tower, Inspection of

D Duties, Assign (Managers)

Duties of Contractors

Designation of Health and Safety Representatives / Committees

Demolition Work

E Electrical Installations and Equipment, Inspection and Maintenance of

Excavations, Inspection of

Explosive Actuated Fastening Device

Emergency Coordinator

F Fall Protection

Fire Precautions

First Aid

- **G** Geo-Science Technical Reports
- H Hazard Identification and Risk Assessment

Hazardous Chemical Substances

L Ladders, Inspection of

Lifting Equipment and Material Hoists, inspection of

Lifting Machine Drivers, Training of

- M Mandatories, Agreements with
- O OHS Plan, Principal Contractor
- P Permit, Construction Work / Notification / LOG /Act
- R Rope Access
- S Scaffold, Erection Inspection and Supervision of

Suspended Platforms

Stacking and Storage

T Temporary Works, Erection, Inspection and Supervision of

Tools, Hand

Tunnelling

- V Vehicles, Construction
- W Water Environments

Welding, Arc and Flame Cutting Equipment

Calculation of D.I.F.R for projects that are more	
than 12 months in operation:	
Number of Disabling Injuries (past 12 months) x 200 000	_
Total Man-hours Worked (past 12 months)	

% ACHIEVED	DIFR	STARS
90% to 100	1.0% or less	5 Stars
80% to 89.9%	2.0% or less	4 Stars
65% to 79.9%	3.0% or less	3 Stars
51% to 64.9%	4.0% or less	2 Stars
40% to 50.9%	5.0% or less	1 Star

Calculation of the D.I.F.R for projects that are ${\bf less}$ than 12 months in operation:

Number of Disabling Injuries \boldsymbol{x}

(200 000 x No. of months in operation ÷ 12)

Total Man-hours Worked (since the start of the project)

Number of Disabling Injuries: Number of D.I.'s experienced in the past 12 months for projects that are longer than 12 months in operation or number of D.I.'s experienced over the actual period since the start of the project if the project is less than 12 months in operation. D.I. as defined in the National OHS Competition Policy, D.I. = an injury that causes a worker to lose one complete shift (or longer). Example: Normal work shift is from 08:00 to 17:00. A worker is injured at 08:05 and remains off duty for the rest of the shift, but is back at work the next morning at 08:00 – this is not a disabling injury. However, if he stays away the day after the accident for a complete work shift (08:00 to 17:00) or longer, it becomes a disabling injury. Disabling injury also includes instances where the injured worker is sent for medical treatment, returns to work but is not employed in his normal vocation or has modified duties.

200 000: Internationally fixed factor for 12 month progressive calculations or a fraction of it for projects less than 12 months in operation e.g. if the project is only 7 months in operation then it will be 7/12 of 200 000.

Total Man-hours Worked: The actual number of hours in the past 12 months or the actual hours worked since the start of the project for projects less than 12 months in operation.
