

Billy Hill – Director

Rainbow Tent Rentals

Billy began in the industry immediately after high school. He purchased his first tent for his own use for his graduation party. Soon enough family and friends asked to borrow the tent and the light-bulb went on! From there, he decided to purchase a few more tents along with tables and chairs and started charging for his equipment. Every time a client would say "do you have such and such to rent" he would say sure, then go buy it. Fast forward 28 years, he now owns a full-service party rental company renting everything from tent structures to linen napkins and everything in between. He is a firm believer of, "if there's a will there's a way". No event is too big or too small. He is the sole owner, runs the office, takes orders, leads employees, and can set up and take down all equipment. He brings ideas that a client has to life and finds that especially rewarding. Nothing comes easy, working nearly 10 months straight every year, having a background in carpentry, being a great problem solver, a good communicator and an all-around hard working person has helped contribute to his success. Continuing to learn new things, changing with the times along with the demands of the clients is what keeps the business growing. Being a member of the board is a new adventure. He hopes to learn from the other members as well as be a mentor to people who are new to the industry.
