

# The Recreational Boating Industries Educational Foundation

The MBIA mission is to advance, protect and promote the recreational boating industry in Michigan. In our efforts to advance the industry, we have made a commitment to provide education and support to all of our members. To facilitate this education, the MBIA has created a scholarship foundation to financially assist the professional development of those in the marine industry called the Recreational Boating Industries Educational Foundation (RBIEF).

RBIEF, a not-for-profit 501(c)3 corporation, was founded in 1986, to provide financial support for education, training and professional development in the recreational marine trades. Specifically, RBIEF's purpose is to offer financial assistance through full or matching tuition and program funding for MBIA members, member's employees, family and students whenever funding is available. Opportunities include but are not limited to Industry Education and College Scholarships. RBIEF will be open to other suggested donations which serve to help MBIA members and the boating industry in Michigan.
