

ORGANISED BY **COASTAL SEES (LAKE ERIE)** A COLLABORATION BETWEEN:

# THE FUTURE OF ALGAL BLOOMS LEARNING FROM EXPERIENCE

A free workshop for water managers, beach managers, marina operators, and modelers to share information and experience about Lake Erie algal blooms

- Share your experience of Harmful Algal Blooms (HABs) in Lake Erie
- Learn about current Lake Erie algal bloom prediction models
- Discuss future HAB response strategies with multiple stakeholders
- Provide input into future prediction model design and how information is shared

**10am - 4pm, Friday October 26, 2018**

**at: Ottawa National Wildlife Refuge - 14000 Ohio 2, Oak Harbor, OH 43449**  
(30 min west of Toledo on Highway 2)
