

OUR VISION

Serving as an essential partner in providing better health and more sustainable healthcare for Canadians.

OUR MISSION

MEDEC speaks with one voice for Canada's medical technology companies in advocating for a responsive, safe and sustainable healthcare system that is enabled by the use of Medical Technology.

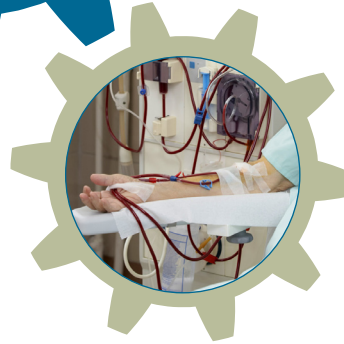

SUPPORTING CANADIAN INNOVATION

- Facilitate sharing of industry best practices to support success of national and Small and Medium Sized Enterprises (SME).
- Devise research and commercialization investment strategies to accelerate growth of a world-class innovation cluster in Canada.

DEMONSTRATING THE VALUE OF TECHNOLOGY

- Work with government to adopt timely, transparent and comprehensive Health Technology Assessment processes.
- Showcase medical technology's critical role to patient care, health system sustainability and to the overall economy.

PROMOTING STRATEGIC PROCUREMENT

- Work with government to implement effective national and regional procurement strategies to ensure timely access to medical technology.

SHAPING THE CANADIAN ENVIRONMENT

- Collaborate with government and other healthcare partners on strategies to achieve a globally competitive Canadian healthcare environment that enables patient access to innovative medical technologies, enhances Canada's world-class research and development capacity and grows the Canadian economy.

OUR POLICY PRIORITIES

- To enhance the overall quality of patient care.
- To improve patient access to effective medical technologies for the purposes of diagnosing, monitoring and treating diseases and medical conditions.
- To support the growth of a vibrant medical technology industry and contribute to Canada's innovation economy.
- To support the sustainability of our publicly-funded health care system.
