• **Senior Member** recognizes contributions to the security community and sustained membership in the association
  o 5 years ISSA membership and
  o 8 person-years of relevant professional experience
    ▪ Candidates may apply 2 years toward the work experience requirement for each of the following degrees received through accredited colleges and universities:
      • Master’s
      • Ph.D

**Definitions of Program Requirements**

• *Person-years of relevant professional experience:* By “person years” we mean actual working hours, not the number of years in a given position, [e.g., a person who writes programming standards may address something about security, but if his primary function is technical writer, then each year should not qualify as a year of security experience, perhaps only one or two months.]

• *Sustained and demonstrated volunteer leadership in the association:* Demonstrated history of recognized contributions to ISSA and the security industry. Volunteer efforts should be documented and that it should have shown results, i.e., more than “I was on the Chapter Board for two years.”

  ● **Non-Exhaustive Examples of ISSA Leadership deliverables**
    • Measurable positive difference in finances
    • Increase in Organization deliverables
    • Number of presentations on behalf of ISSA
  
  ● **Non-Exhaustive Examples of Industry Leadership**
    o Significant contribution to security software, processes or products
    o Creation and delivery of education, training and mentoring
    o Demonstration of added value to your organization through the security function

**Selection Process**

• **Senior Member**
  Individuals must submit an application that includes the following items:
  o Senior Member Application including endorsement signature from their Chapter Board of Directors. At-Large members may submit directly. Requesting chapter endorsement submission is the responsibility of the applicant.
  o Certification of Membership form
  o Resume with dates and depth of experience

Applications will be reviewed by a committee composed of Fellow Program members. Each application will be reviewed by a committee member to ensure candidates meet Senior Member requirements. Should there be a question as to whether a candidate is
eligible, the application will be elevated to the Committee Chair. Decisions of the committee are final for any given selection cycle. Unsuccessful candidates are welcome to reapply in subsequent cycles.

• **Fellow and Distinguished Fellow**

Candidates for Fellow or Distinguished Fellow must be nominated by an active Fellow Program member of comparable or higher rank, chapter president or sitting member of the International Board of Directors.

- Each nominator may submit a maximum of one (1) Distinguished Fellow and two (2) Fellow nominations in a single cycle.
- In the event a chapter wishes to nominate its current president, the president may recuse him or herself passing the nominating authority to the vice president.
- Nominators should consider that the Fellow Program is specific to encourage and acknowledge, not just industry contributions, but specifically long-term membership and organizational leadership. There are other ISSA award programs available that are not dependent on volunteerism.

Nominators are responsible for ensuring that all components of the nomination package are submitted in a timely manner. The package includes:

- Official Fellow Program nomination form completed by the nominator. The nomination itself is considered a letter of recommendation and should fully describe the candidate’s activities, contributions and ongoing influence.
- Application completed by the nominee
- Certification of membership form
- Additional letters of recommendation are not required, but candidates may submit up to two (2) recommendation letters from individuals who are otherwise qualified as nominators, including chapter presidents, Fellows, Distinguished Fellows and sitting members of the ISSA International Board of Directors. A second letter of recommendation (other than the nomination form) from the member making the nomination will not be accepted.
- Resume with dates and depth of experience
- Details of service to ISSA including leadership positions held and dates of service
- Photo

Acceptance is competitive; meeting the base requirements is not sufficient. Candidates are encouraged to present their best case possible. No more than 1% of members may hold Distinguished Fellow status at any given time. Fellow status will be limited to a maximum of 2% of the membership.

All completed packages will be evaluated by a minimum of two members of the Fellow Selection Committee composed of Fellow Program members of comparable or higher rank. Reviewers will make recommendations on each application. In any case when the reviewers do not agree, the package will be reviewed by the committee chair who will cast the tiebreaker.
Subjectivity of each candidate’s application is a priority. Stated objectives on the application are to be met in a manner best suited to the candidate as determined by the judges – anecdotal information not included as part of the official submission is disallowed. This may include demonstrated ISSA leadership activity, demonstrated security industry leadership activity, and consideration of any known objections to candidate’s qualifications presented to the entire judging team.

The reviewing members of the Fellow Selection Committee reserve the right to re-level the applicant’s perceived level during the application review process for Senior Members, Fellows, or Distinguished Fellows.

The committee chair will present a slate of recommended candidates to the International Board of Directors with an executive summary on the qualifications for each.

- A majority of Board members present will be required for approval.
- The Board of Directors has the ultimate authority to grant Fellow or Distinguished Fellow status.

**Initial Seeding**
To initiate the program, Hall of Fame members were invited to become the inaugural class of Distinguished Fellows to evaluate proposed Fellow and Distinguished Fellow nominees

**Fellows Selection Policies and Procedures**

- The International Board member designated as Fellow Program Chair by the President may appoint chairs of the Fellow Selection Committee and Senior Member Review Committee. Committee chairs shall be current Fellow Program members of good standing of the appropriate rank. The term of service shall be one selection cycle and may be reappointed for subsequent cycles at the discretion of the Fellow Chair.
