

## THANK YOU!!!

**A Huge Thank You to Everyone who Attended, Supported, or Partnered with Us on the 2018 MichBio Expo!**

We are so grateful for everyone who came together to make the 2018 Expo a success--the attendees who brought engaging questions, the speakers who brought expertise and a willingness to teach, the exhibitors who demonstrated that it is the collective community that drives growth, and, of course, the hotel support staff who handled the details and ensured the event ran seamlessly from start to finish. Thank you for participating in the event and being a part of the Michigan Bio-industry!

# BioArbor

Life Science Forum

## Join Us!

**BioArbor Life Science Forum Dec. 12  
Ann Arbor SPARK Center Innovation Center**

Join us for the next edition in the BioArbor series: **The Good, The Bad, and The Ugly** CEO's, CFO's and other senior leadership are often brought in, at best, when an organization is looking for new direction, and, at worst, when the organization is in crisis. Their essential function is to look for opportunities and make the tough choices necessary to move forward. That process can get them branded as the enemy and make real change more difficult. Listen as a group of experienced senior leaders, who have worked with many organizations, discuss the good--what works, the bad--common mistakes, and the ugly--the hard solutions that challenge leadership.
