

Survey Crew Chief

Driesenga & Associates, Inc., a full service Professional Land Surveying and Civil Engineering firm with offices in Holland, Grand Rapids, & Kalamazoo, Michigan is seeking candidates to fill a career opportunity in our Kalamazoo, Michigan office.

This position will work with and under the direction of the Survey Group Manager to complete a wide variety of survey and staking services for our clients in the areas of residential, industrial, commercial, and municipal development. The ideal candidate must be knowledgeable in the operation of current survey equipment, including but not limited to robotic total stations, data collectors, and GPS. Dependent on workload and prior experience job tasks could include coordination of survey crews and CAD staff as well as legal description writing, boundary and construction staking computations, and CAD drawing preparation.

An Associates / Bachelor's Degree in Land Surveying or similar field of study and/or requisite experience along the ability to obtain a Michigan Professional Surveyor license within two years is desired but not required. The desired candidate shall have at least 3 years of related experience and be able to manage own projects with little oversight.

Some of the benefits offered to full-time employees by D&A include:

- Health, Dental, Vision, Life, and Disability Insurance
- Flexible Paid Time Off bank
- 401K program with employer match
- Tuition Reimbursement
