

### **Survey Group Manager (Professional Surveyor / LSIT)**

Driesenga & Associates, Inc. is a full service professional civil engineering and land surveying firm looking to fill career opportunities in our Holland, Michigan office.

A client focused supervisory position that plans, directs, and coordinates work of survey crews and CAD staff engaged in land surveying, report preparation, legal descriptions, construction documents, and CAD documents in support of our client's projects. Must be able to multitask and communicate with fellow engineering and construction professionals. The position will work with and under the direction of the Director of Surveying and be accountable for a wide variety of survey projects in the areas of residential, industrial, commercial, and municipal development. Dependent on workload, job tasks could also include a wide variety of field surveying and staking services for our clients. The ideal candidate must be knowledgeable in the operation of current survey equipment, including but not limited to robotic total stations, data collectors, and GPS.

A bachelor's degree in Land Surveying along with the requisite experience is required. A Michigan Professional Surveyor license or the ability to obtain one within one year is required. Must have at least 5 years of related experience, work well in a team environment, and be able to manage own projects with little oversight.

Some of the benefits offered to full-time employees by D&A include:

- Health, Life, and Disability Insurance
- Flexible Paid Time Off bank
- 401K program with employer match
- Tuition Reimbursement
