**E-12 Education/Omnibus Spending Bills
Other Misc Formula Funding – Governor – NOT ADOPTED**

Q Comp: Eliminate aid proration for districts currently in the program

- Aid is currently prorated at 98.8% due to the statewide cap and enrollment growth in districts in the program
- Districts currently levy to make up the aid loss due to proration
- This would fully fund the aid at a cost of \$847 K in FY 19 and \$3.071 M for FY 20-FY 21 with an offsetting reduction in the levy.
- For districts in the program that don't levy and charter schools, there would be a slight increase.

Kindergarten-Disabled ADM (\$153 K for FY 19; \$340K for FY 20-FY 21)

- Make the calculation of pupil units for kindergarten students with a disability the same as for kindergarten students without a disability
- Currently, K students with a disability must have 875 hours to generate 1 ADM, vs 850 for other students, and K students with a disability do not qualify for extended time revenue

- (The temporarily increase from \$1,500 to \$3,230 / PU that is in effect for FY 16-FY 19 will expire in FY 20 unless extended or made permanent)

High school equivalency test fee reimbursement (\$403 K per year)

- For FY 19 and later, increases the reimbursement for one full battery of tests per year from 60% of the fee not to exceed \$40 to 100% of the fee not to exceed \$120.

Vetoed

Operating Referendum / Local Optional Revenue Simplification

(Governor and Conference)

- Eliminates annual recalculation of referendum allowances approved before 2014 based on the amount of LOR a district opts to receive
- Transfers \$300 /PU of referendum revenue to LOR; eliminates board-approved referendum
- For districts with inflation-adjusted referendum authority transferred to LOR, inflationary adjustments continue for the life of the referendum as if the transfer had not been made
- To ensure there is no change in revenue, aid or levy for any district, creates a two-tiered levy for LOR; Tier 1 of LOR replaces Tier 1 of the referendum
- Referendum cap reduced by \$300 to neutralize the impact of the \$300 transfer to LOR on room under the cap

E-12 Education/Omnibus Spending Bills – VETOED
 Appropriation Adjustments for February 2018 Forecast

Vetoed

- The bill included routine adjustments to update state aid appropriations to reflect changes in estimated aid entitlements that have occurred between the end of the 2017 legislative session and the February 2018 forecast.
- With the veto of the bill, these adjustments will not take effect this summer. However, under MS 127A.41, subd. 8 and 9, after final payments have been calculated for each fiscal year, MDE transfers funds from forecasted accounts that have surpluses to forecasted accounts that have shortfalls to mitigate the impact of aid proration.
 - For FY 2017, there are sufficient surpluses to cover the shortfalls for all forecasted programs with a shortfall.
 - For FY 2018, based on February 2018 forecast estimates, the projected shortfalls are about \$30 million and the projected surpluses are about \$5 million, leaving a net shortfall of about \$25 million.

E-12 Education/Omnibus Spending Bills – VETOED
 Appropriation Adjustments for February 2018 Forecast (continued)

Vetoed

- After the year-end transfers are made, the projected shortfalls for FY 2018 are as follows:

Aid Program	Net Shortfall	Est. Proration
Special education	\$22.8 million	98.3%
Interdistrict Deseg Transportation	0.8 million	94.2%
LTFM	0.8 million	99.1%
Achievement and Integration	0.3 million	99.6%
Abatement	0.2 million	92.4%
Career Tech	0.2 million	96.2%

- The November forecast will reflect the estimated need in the FY 2019 clean-up appropriation to meet the full FY 2018 entitlement. This would allow the 2019 legislature to pass a forecast bill that fully funds the 2018 entitlements.
- Projected shortfalls for FY 2019 will be addressed in the 2019 E-12 education bill.
