

**August 16, 2018**

## “Ensuring Drinking Water is Safe”

### FREE Training Designed Specifically Small Systems

Your small system faces day-to-day challenges providing reliable, safe drinking water for your customers. **MN AWWA Section is offering a FREE workshop** to help your utility focus on Water Distribution Infrastructure and how it affects water quality; as well as measuring Distribution Water Quality and understanding Unidirectional Flushing programs. The Workshop will feature a learning labs portion on Water Quality Field Work.

This workshop is made possible by funding through the USEPA and AWWA’s partner, the Rural Community Assistance Partnership.

**The Training is FREE, but you MUST REGISTER in advance to reserve your place.**

Register online at <http://www.mnawwa.org/event/SmallSystems2018>

Workshop eligible for 6 MN Water Operator Training Hours

Breakfast and afternoon refreshment provided at this seminar courtesy of MN AWWA.

**WHEN:** August 16, 2018  
8:15 am - 3:15 pm

**WHERE:** Fergus Falls City Hall  
Fergus Falls, MN 56537
