Water For People is an international nonprofit working across 9 countries to bring safe water and sanitation to 4 million people. 2.1 billion people around the world don't have access to safe water and 4.5 billion lack access to adequate sanitation. Women and children spend more than four hours walking for water each day, and more than 840,000 people die each year from water-related diseases. Water For People exists to promote the development of high-quality drinking water and sanitation services, accessible to all, and sustained by strong communities, businesses, and governments. We're working to reach Everyone Forever.

4 MILLION PEOPLE, 9 COUNTRIES

safe water and sanitation for generations
