About MFDA Convention

MFDA Convention is an annual statewide convention designed to provide education, networking and sharing of best practices in funeral service.

As a professional community, it is important to challenge ourselves by raising the bar and staying relevant in today's culture. Specifically, the convention seeks to link such ideas as public health, technical innovation, environmental protection, business ethics, and customer satisfaction.

Convention Objective

MFDA Convention 2019 seeks to provide key partners in all areas of the funeral service industry the opportunity to increase their knowledge base and network with others. Partners include funeral directors, suppliers, preplanning consultants, brokers, owners, aftercare coordinators, and support staff. Attendees will receive the tools needed to better serve the families in our communities through outstanding training sessions, inspirational keynote speakers, educational exhibits and demonstrations, best practice sharing, and other networking activities. Our focus is to present tangible, real world information using case studies and proven methods.
