### RED WINES

**FRONTENAC** - Frontenac is the first of the University of Minnesota's line of cold hardy grapevines. It produces a medium bodied wine with distinct cherry, berry and plum aromas. Makes outstanding Port and Rosé wines as well.

**MARQUETTE** - A University of Minnesota red wine release that produces a complex, spicy and full bodied wine. Remarkable in that it offers tannins that most northern grapes lack. Initial response to the wine has been enthusiastic.

**SAINT CROIX** - A red wine variety from the work of Elmer Swenson, the godfather of Minnesota/Wisconsin viticulture. He hybridized grapes at his Wisconsin dairy farm for more than 50 years. St. Croix is among the most popular of his releases. It produces a medium bodied red wine with good fruitiness and aroma.

### WHITE WINES

**FRONTENAC GRIS** - A color mutation of Frontenac, it produces a crisp, clean white or sometimes blush wine with peach and tropical fruit flavors.

**LA CRESCENT** - A University of Minnesota introduction that makes outstanding semi-sweet and dessert wines noted for their intense apricot, citrus and pineapple aromas.

**PRAIRIE STAR** - A strong growing white grape which produces a crisp and delicious white wine excellent for blending with other grapes or for producing a varietal wine with good balance and body.

**LOUISE SWENSON** - Produces a delicate and subtle white wine with floral aromas and honey flavors. When blended it can provide quality and finesse to other white wines.

## Interested in Growing Grapes?

The **Minnesota Grape Growers Association** was formed in 1976 to heighten public awareness of the Minnesota grape and wine industry, advance legislative support of the grape and wine industry and advance quality standards in the production of Minnesota grown grapes and wines. We invite you to explore our website and discover the exceptional quality of the Minnesota Grape and Wine Industry. [mngrapes.org](http://mngrapes.org)
