TWO FULL DAYS OF OASIS-E DATA COLLECTION RULES & GUIDANCE TRAINING, WITH AN OPTIONAL CERTIFICATE FOR OASIS SPECIALIST-CLINICAL EXAM ADMINISTRATION

BLUEPRINT FOR OASIS ACCURACY WORKSHOP

OASIS continues to evolve! Based on the most current CMS guidance available, this workshop provides the nation's best preparation on the 27 new OASIS-E items and guidance, scheduled to become effective January 1, 2023. This engaging, up-to-the-minute education is developed and presented by the OASIS Answers' Blueprint Team and is targeted for field data collectors, clinical supervisors, OASIS educators and reviewers, quality improvement staff, and those preparing for the COS-C Exam.

Experience the comprehensive and nationally acclaimed two-day Blueprint for OASIS Accuracy workshop and learn to confidently teach, audit and collect OASIS-E items accurately. Through guided, relatable, expert instruction, and participation in problem-solving discussions to code more than 50 application scenarios, join the dedicated OASIS Answers' team as we master the new items and guidance for 2023 together.

Workshop educational objectives include:

- Selecting OASIS responses that accurately represent clinical assessment findings
- Providing accurate data for valid quality measurement and payment
- Documenting OASIS data, compliant with CMS expectations and instructions

Rather than provide opinions, assumptions, or unfounded interpretations, the Blueprint presenters will model reliance on CMS guidance documents and provide and demonstrate strategies for how to become more familiar with the new resources, and how to find defensible answers to your OASIS questions.

BLUEPRINT FOR OASIS ACCURACY

WORKSHOP FACILITATORS

MEGAN BERNIER,
MSPT, COS-C
Post-Acute Care Clinical Manager

Megan Bernier is a physical therapist with a Masters in Physical Therapy. She has worked in the home health industry since 2010 as a field clinician, as well as in supervisory and administrative positions supporting home health quality improvement, regulatory compliance, clinical documentation, and operations. Megan currently supports OAI's post-acute care work with provider education, guidance manual work, and CMS Help Desks support that provides guidance on data collection of OASIS, the MDS, the IRF-PAI and the LTCH CARE Data Set. She has a passion and appreciation for the critical need for OASIS accuracy and is a knowledgeable and passionate national OASIS educator. Megan holds the Certificate for OASIS Specialist-Clinical (COS-C) designation and serves as a Post-Acute Care Clinical Manager with OASIS Answers, Inc.

WENDY K ANEMAET
PT DPT PhD GCS
CWS GTC COS-C

Senior Associate Consultant, OASIS Answers, Inc. Wendy is a physical therapist since 1989 with experience in home health, acute care, rehab, outpatient, and skilled nursing. She is an Associate Professor in the Doctoral Physical Therapy Program at Hardin Simmons University in Abilene, Texas. Wendy is a Geriatric Clinical Specialist (GCS) and Certified Wound Specialist (CWS), has a Geriatric Training Certificate (GTC), and serves on the editorial board of Topics in Geriatric Rehabilitation. She has co-authored books on home health rehabilitation and has published hundreds of articles on home health therapy in peer-reviewed and trade publications. She provides training nationally on geriatric strengthening, wound assessment and management, falls prevention, and competency testing for home health physical therapists on the drug regimen review and pharmacology. Wendy holds the Certificate for OASIS Specialist-Clinical (COS-C) designation and is a Senior Associate Consultant with OASIS Answers, Inc.

CERTIFICATE FOR OASIS SPECIALIST – CLINICAL EXAM

Secure a spot by registering at least one week in advance. Onsite exam registration may not be available.

The Certificate for OASIS Specialist-Clinical (COS-C) Exam is a voluntary certificate examination for those interested in demonstrating and establishing their expertise and commitment to OASIS data accuracy. Administered the day following the Blueprint for OASIS Accuracy training, the scope of the COS-C exam is similar to the Blueprint workshop agenda, covering current CMS OASIS data collection rules and guidance related to OASIS time points, regulations, patient populations and OASIS item specific scoring.

Candidates who successfully pass the examination are awarded the COS-C designation. Call OASIS Answers, Inc. at (425) 868.2304 or visit www.oasisanswers.com to learn more or to register for the COS-C examination.
