WIRELESS INTERNET SERVICE

Connect to MSE_Hotspot

- **Wireless internet service is available for attendee or light exhibitor use, such as checking email, browsing the internet, or displaying web sites.**
- **Uploading and/or downloading audio or video files is not considered casual browsing and may cause system issues either for you or for others in the facility. Personal (rogue) wireless or hotspot devices can also result in wireless service issues and are restricted in this facility. Please be respectful of this policy.**
- **You are STRONGLY advised to purchase a wired internet line if your business depends on reliable internet service. Examples include:**
 - Financial transactions
 - Uploading or downloading video
 - Uploading or downloading photos
 - Presenting to a group using the internet
 - Filing news stories
 - Any action that you expect uninterrupted dependable internet service
- **Ordering a wired internet line last minute may take some time to install based on factors such as labor availability or access to internet ports. Ordering IN ADVANCE through our online ordering system at www.rivercentre.org is the best way to guarantee internet service.**
