PVeraguth@Co.Winona.MN.US

Dear Chapter Officers,

It is time again to begin the process of looking ahead at finding next year's leaders for the MSPS boards several open director and officer positions that will become available. In addition each year we are also asked to consider 3 individuals among our members that have given their time and talents for the profession and the community in which they live so that we can recognize them for their efforts and the contributions.

I understand that the chapter presidents and I at some appropriate time in September will conduct a conference call to make decisions in regards to the nominating and awards committee's recommendation. In that spirit I wanted to get all the chapters this information early so that you would be able to connect with your membership well in advance of the MSPS board of directors fall planning meeting where this will be a matter of discussion.

Your MSPS board has encouraged participation from all chapters to be represented in the various leadership roles on the board. With the upcoming vacancies chapter 1 and 4 will no longer have representation on the board without finding a candidate to fill some of the board openings. These two chapters should consider finding individuals to represent their geographic surveying communities. In total the committee will be looking to find 3 individuals for awards and to find 4 individuals for the board openings.

If you have candidates that you would like the nominating or awards committee to consider in September please let your chapter presidents or I know so that we can discuss and take the necessary steps to insure all voices are heard.

Thank you for your consideration and the efforts that you put forth to raise the awareness of our Land Surveying Profession and MSPS.

Respectfully,

David Landecker, PLS
Past President MSPS
