Improve Efficiency Through End-to-end Content and Process Automation

Upland’s FileBound delivers document and workflow automation applications that improve the operation of any organization by connecting users with the information they need to work more efficiently and effectively.

With FileBound, customers can build automated workflow processes and centrally manage documents to improve compliance, collaboration and access to information. FileBound applications can be deployed locally or as a cloud-based service and have been implemented by organizations of all sizes around the world.

Benefits

Unlike legacy products, FileBound’s simplified, flexible approach to usability, configurability and licensing delivers fast, game-changing results:

- **Easy-to-use configuration tools** give you greater control and agility by reducing reliance on IT when responding to changing business needs
- **Device-agnostic mobile solutions** seamlessly support BYOD policies and remote users at no additional cost
- **Predictive Analytics tools** provide meaningful, timely and actionable insights into all workflow processes to harness the full value of the data to make better business decisions
- **Contemporary interface design** makes it easy to adapt to automation technology and controls what you see when logging on, making it easier to complete work
- **Easy-to-understand, all-in-one licensing options** meet the needs of businesses of all kinds
- **Strong integration capabilities** allow you to build end-to-end automation solutions that maximize productivity by eliminating "data silos"

“FileBound’s workflow and document management solutions empowered us to be able to unburden our staff regarding those manual, time consuming duties that filled their days. Now, our employees can spend more time on tasks that matter most for the community we serve. After all, we’re here to help people — not to focus on paperwork.”

— Germaine Gross, Vice President of Finance & Administrative Services, Volunteers of America Greater New Orleans
