

CNA of the Year 2018

BECKY HAVEN

Brooke Haven Health Care's CNA of the Year is Becky Haven CNA/CMT. Becky is one special CNA who always takes the extra time to give a resident a smile, a hug, or even an encouraging word. Becky has been with us for 14 years in numerous positions and departments. She has worked on the floor as both a CNA and a CMT, with a smile for all. Becky has worked as a bus driver in the Social Services department. She still comes forward to help in a pinch to transport residents to an appointment or an outing. Becky has also worked in the Restorative Department as a Restorative Nursing Assistant. The residents were actually excited to be able to complete their exercises with Becky's daily praise and encouragement. Becky does an awesome job at every position she has held. Becky is the staff member that her supervisors, her coworkers, and the residents know they can always count on. Becky is always doing little extras for all her residents. Becky has not been required to provide direct patient care, but she continues to do so each and every day. We have one resident who will only change his shirt when Becky asks him to. Another resident looks for the peppermints Becky gives him to help with the dry mouth caused by nebulizer treatments. Becky has been known to give clothes to residents who do not have family to provide for them. Becky is dependable, someone who can always be counted on no matter the circumstances. Becky is always willing to go above and beyond for every resident and coworker at Brooke Haven Health Care, and she usually does it with a smile. A very important aspect of her daily routine as she goes through the building is dropping off butter rum lifesavers to her coworkers. Becky recently began passing medications again to our wonderful residents on the North side of the building. Several residents have come to tell me they are really happy to have Becky as their Med Tech again. Becky is able to get people to do things that no one else can talk them into doing. Her words of encouragement are a soothing balm to those residents we care for. Becky's smile always brings a returning smile from the residents we care for. Becky is a loving sister, mom, Nana, and CNA! We are very lucky to have Becky as an amazing member of our great team at Brooke Haven Health Care and hope she remains a part of our team for many years to come.
