ANNOUNCEMENTS

Missouri PPE Manufacturers

Below is a list of Missouri companies that are producing PPE, including what type of PPE (face shields, hand sanitizer, gowns, surgical masks) and their contact information. Please feel free to reach out to these companies to see if you can develop a new supplier relationship. Additional companies will be added as more companies acquire the capabilities to produce PPE. The state will be providing some grant support to manufacturers so that additional types of PPE can be manufactured in Missouri, like N-95 masks and gloves.
