

BECOME AN ADVOCATE TO PROTECT MISSOURI'S MOST VULNERABLE!

We need your help! Years of underfunding and historic cuts to the long term care Medicaid rates have created a crisis for our residents. The underfunding of these services makes it nearly impossible to provide the highly specialized and vital care our vulnerable seniors, veterans and disabled Missourians require. This is a travesty to our residents and unsustainable for long term care facilities. The 2018 legislative session is underway and we must work together to be successful securing adequate funding for care of nursing home residents. Elected officials need and want to hear directly from you -their voters- on this important issue. Please join our campaign to speak on behalf of our residents -your family and friends- who do not have a voice. Sign up by following the instructions below. We will contact you when it is time to take action and supply you with all the tools you need! It is simple and can make a difference for our seniors, veterans, and disabled Missourians!
