November 21, 2019

Dear AMCA Trustees and Commissioners,

On behalf of the American Mosquito Control Association (AMCA), I am pleased to personally invite you to attend the 86th AMCA Annual Meeting taking place March 16-March 20, 2020 in Portland, OR at the Oregon Convention Center.

Enclosed with this letter you will find the itinerary for the Trustee/Commissioner tour on Wednesday, March 18th. In addition the tour activities, there are also many other scientific presentations and networking opportunities that fill out the Annual Meeting schedule. We want you to know that your presence at the AMCA Annual Meeting is greatly valued, and we hope that you will attend the meeting and take advantage of everything we have to offer.

Registration and hotel information can be found at www.mosquito.org/annual-meeting. The discounted registration deadline is February 20, 2020, so please take advantage of this specialty rate for trustees and commissioners. Personal guests of Trustees and Commissioners are also welcome and there is a special registration category just for them! Hotel accommodations are available at the DoubleTree Portland, Crowne Plaza Portland, or Hilton Portland Downtown. The deadline to receive the discounted rate is February 12, 2020.

Please do not hesitate to contact me should you have any questions or require additional information. I hope to see you in Orlando!

Sincerely,

David Butler
AMCA Executive Director

About McMenamin’s Edgefield
McMenamin is a name that every Oregonian will recognize. It is the last name of a pair of brothers who have developed a group of quirky pubs and restaurants in Oregon and Washington state. The family business also became a powerhouse in the local craft beverage industry making beer, wine, distilled spirits, cider and house roasted coffee. The largest McMenamin’s property is Edgefield, a 74-acre parcel 30 minutes outside of Portland. The property features 32 holes of pitch-and-putt golf, a fine dining restaurant, several pubs, a spa, concert and event venue, winery and vineyard, brewery, distillery, glass blowing studio, gardens and more.
About Bonneville Fish Hatchery
The hatchery raises millions of salmon and steelhead each year from spawned eggs to fingerlings. You will have the chance to meet “Herman” the sturgeon, a 75-year old, 10-foot long, 500-pound prehistoric fish, the result of 200 million years of evolution.

About Multnomah Falls
Multnomah Falls is the second highest year-round waterfall in the United States and the highest waterfall in Oregon. This set of falls near Portland, Oregon is the state’s top natural attraction, drawing over 2.5 million visitors a year from around the world.
