Email: mvma@movma.org • Website: www.movma.org

MVMA Members,

On Monday, we shared with you what we have learned about the canine respiratory disease that is in the media. Discussions with the Missouri Department of Agriculture and the MU Veterinary Medical Diagnostic Laboratory, led us to create a landing page as a resource for you on CIRDC Updates. <https://www.movma.org/news/news.asp?id=658542>

TESTING & QUESTIONS:

Further communications with the MU VMDL have led to the creation of the "Canine Respiratory Disease - What Can be Done at MU VMDL" webpage for details on submitting samples along with contact information for the lab. <https://vmdl.missouri.edu/2023/11/29/canine-respiratory-disease-what-can-be-done-at-mu-vmdl/>

General questions regarding canine respiratory testing at the MU VMDL may be directed to Client Services Veterinarian, Lauren Delaney, DVM at 573-882-8367 or delaneyle@missouri.edu

MVMA will continue to monitor the situation and report significant developments to our members.

TONIGHT:

Trupanion is inviting pet parents and veterinary professionals to join a free, live webinar - "Separating Fact, Fiction, and Uncertainty: Canine Respiratory Illness Q&A" to be held TONIGHT, Thursday, November 30, 2023 at 6:30 PM CT / 7:30 PM ET. Follow this link for more details including the DVM Panel: <https://www.wormsandgermsblog.com/>
