Are you an NP or PA? ASAM also provides the additional 16 hours required for NPs and PAs to qualify for a waiver.

The ASAM Treatment of Opioid Use Disorder Course covers the highest quality, evidence- based practices for treating patients with opioid use disorder.

The ASAM Treatment of Opioid Use Disorder Course is designed for:

- Licensed physicians, nurse practitioners, and physician assistants who plan to obtain a waiver to prescribe buprenorphine in office-based treatment of opioid use disorders in Washington, DC.
- Must be licensed in Washington, DC or plan to practice in Washington, DC.

Our case-based learning format will show you how to apply this new knowledge. You will learn how to:

- Have specific knowledge to offer treatments for patients with opioid use disorder.
- Identify and assess patients who are appropriate for treatment with medications.
- Discuss the psychiatric and medical co-morbidities associated with opioid addiction.
- Apply for a waiver to prescribe buprenorphine to patients with opioid use disorders.

ASAM is an approved provider by CSAT/SAMHSA of DATA 2000 training.

ACCME ACCREDITATION STATEMENT: The American Society of Addiction Medicine (ASAM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.

AMA CREDIT DESIGNATION STATEMENT: The American Society of Addiction Medicine designates this live activity for a maximum of 8 AMA PRA Category 1 Credits™. Physicians should claim credit commensurate with the extent of their participation in the activity.

This course is being offered as part of the Howard University Prescribers Training and Capacity Building Assistance Program, which aims at increasing the number of providers in primary care settings to treat opioid use disorder in the District of Columbia and to establish a sustainable opioid addiction treatment provider network in DC.

Funded by DC Department of Health
